

Colden Common Parish Profile

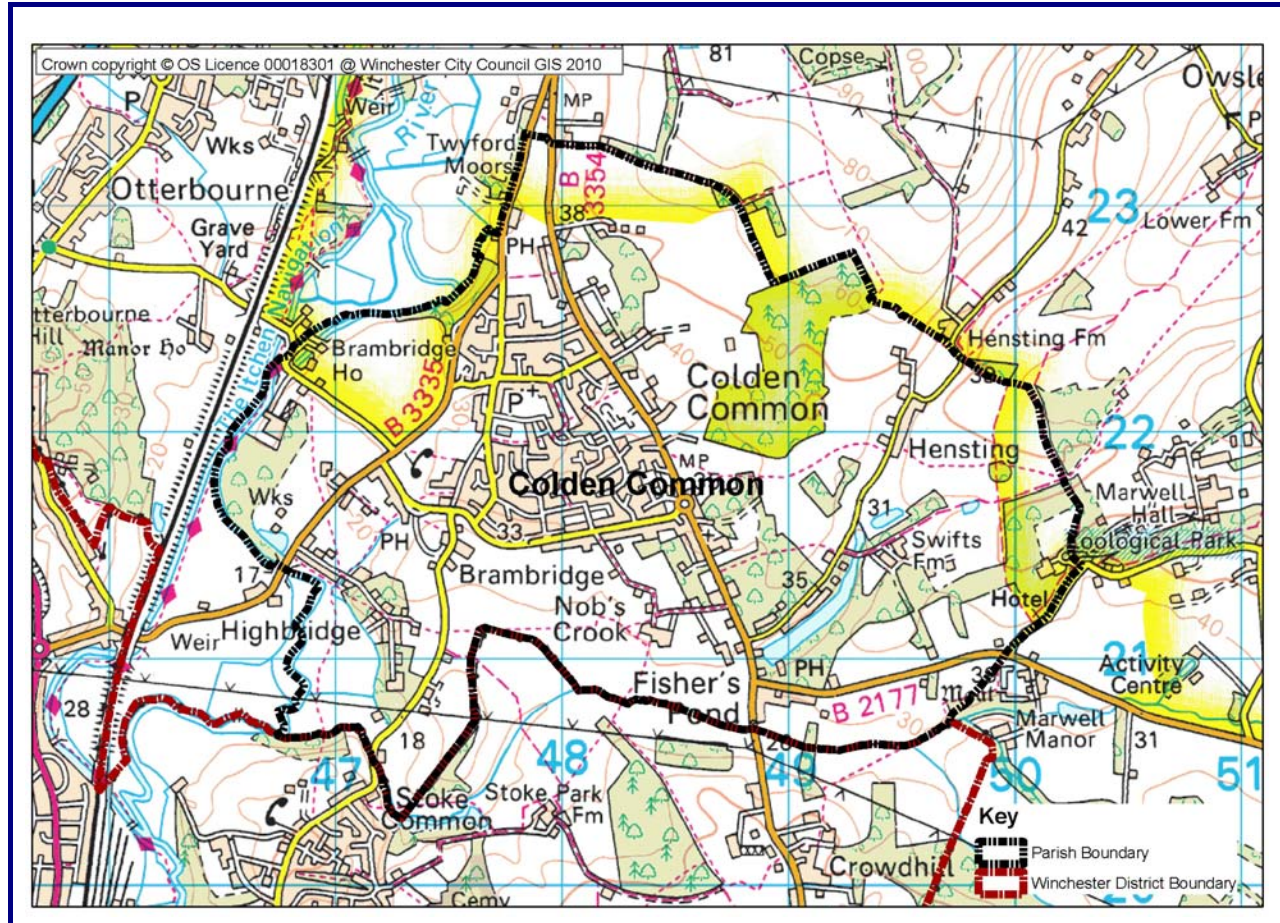

Key facts and figures about the Parish of Colden Common

Welcome to the Parish Profile for Colden Common.

The purpose of this information is to provide some facts and figures about the type of place you live in. The information below contains details of the population, number and types of houses, where people work and the type of occupations they have. We've also included some information on car ownership and other key services such as the capacity of local schools and where the nearest GP is.

This data has however been gathered from a number of sources (all of which are quoted), and many of which all have different base dates.

Please use this data to inform your blueprint debate – to help you understand how the needs of the people in your community may change over time.

Population & Housing Change

The tables and graphs below show two possible scenarios for population and housing change in the Parish – it is not suggested that they should or will happen. The first is called ‘natural change’¹ and looks at how the Parish’s population might change if the number of people moving in or out is in balance. The second shows what using the South East Plan housing requirement of 12240 homes to be built between 2006 and 2026 would have produced. This requirement has now been abolished; however it does provide an interesting comparison based on research carried out when the plan was produced².

‘Natural change’ (commitments 2011-2016, ‘zero net migration’ 2016-2031)

Age / Year	0-4 (Pre-School)	5-15 (School age)	16-44 (Young Family)	45-64 (Middle age)	65-74 (Pensioner)	75+ (Elderly)	TOTAL POP.	DWELLINGS
2001	205	469	1316	1094	353	244	3681	1620
2011	189	496	1213	1181	450	374	3903	1729
2016	169	482	1147	1163	503	443	3907	1769
2021	163	478	1109	1148	509	501	3908	1805
2026	159	460	1102	1085	497	557	3860	1833
2031	152	445	1077	1008	533	584	3799	1855

¹ How was this calculated?

The **‘Natural Change’** scenario is population-led and assumes ‘zero net migration’ (i.e. in-migration is balanced by out-migration). It uses Hampshire County Council population projections for Colden Common to 2016 (which take account of planning permissions and committed housing sites) and then applies population change in proportion to the a zero net migration projections for the Winchester District.

² How was this calculated?

The **‘SE Plan Housing’** assumption is housing-led and uses Hampshire County Council population projections for Winchester to 2011 (which take account of planning permissions and committed housing sites) and then applies a housing growth rate in proportion to the Winchester District housing requirement in the South East Plan to 2026.

Source: 2001 = 2001 Census
 2011-2016 = HCC Small Area Population Statistics (2009 based)
 2016-2031 = HCC Zero Net Migration (using Winchester District % changes)

'SE Plan Housing' (commitment to 2011, SE Plan housing 2016-2026)

Age / Year	0-4 (Pre-School)	5-15 (School age)	16-44 (Young Family)	45-64 (Middle age)	65-74 (Pensioner)	75+ (Elderly)	TOTAL	DWELLINGS
2001	205	469	1316	1094	353	244	3681	1620
2011	189	496	1213	1181	450	374	3903	1729
2016	190	503	1303	1241	470	425	4132	1914
2021	208	581	1298	1280	558	496	4421	2023
2026	205	596	1328	1279	562	594	4564	2127

Source: 2001 = 2001 Census, 2011 = HCC Small Area Population Statistics (2009 based)
 2016 - 2026 = HCC South East Plan housing-led (using Winchester District % changes)

Under both scenarios the older age groups increase due to the 'aging' population. Under the 'SE Plan' scenario all other age groups also increase in number, whereas under the 'Natural Change' scenario they decrease along with the size of the total population. The dwelling change is shown in the tables below converted to annual figures

The amount of housing provided affects the population size and structure. In considering how much housing is appropriate, account needs to be taken of the overall population size, but also the effect on different age groups, the resulting need for/impact on facilities and services (such as health care, schools, etc) and on employment/commuting.

Housing

No of dwellings		1620
Vacant dwellings		30
2 nd homes		3
Tenure:		
Privately owned		80.7%
Council/RSL rented		13.2%
Privately rented		6.1%
No of new houses built- last 5 years		93 (18 per annum)
Dwelling increase 2011-2026 (SE Plan)		27 dwellings per annum
Dwelling increase 2011-2031 (natural change)		6 dwellings per annum
Dwelling increase 2006-2026 (CS MTRA2) ³		15 dwellings per annum
Affordable housing	Number of households on the housing register ⁴	1119
	Number of households with local connection ⁵	79

Source: Census 2001; WCC

³ CS MRTA 2 = [Core Strategy \(Preferred Option\)](#) policy MRTA2

⁴ Number taken from the [Hampshire Home Choice Register](#)

⁵ Number of household with local connection = the number of households identified as being eligible for affordable rural housing in a village to which they had a local connection by reason of family, residence or employment (2008). These households are also included on the housing register.

Employment

Economically active = people in work or looking for work	69.3% (Winchester District = 79.7%)		
Economically inactive = retired, students, looking after family/home, permanently sick/disabled	28.1% (Winchester District = 20.3%)		
Jobs in Colden Common	795		
Working residents	1760		
% of working residents employed in CC	21.0%		
% of CC workers living in CC	46.4%		
Employment by Occupation (categories taken from 200 edition Standard Occupational Classification (SOC))			
Managers and senior officials	19.5% (Winchester District = 19.7%)
